JERAISY TECH

Expertise that starts with your needs and continues **after go-live**

Jeraisy Tech is a Saudi company specialising in the supply and deployment of technology, office, security, education and digital solutions. We are part of the Jeraisy Group, one of the established names in the Saudi market, and we carry its long-term commitment to every client.

We work with leading global brands to deliver genuine equipment and well-designed solutions, then stay alongside our clients with installation, operation, training and preventive maintenance. For us, supply is where the relationship begins.

We serve banks, hospitals, government entities and major private-sector companies, backed by a dedicated maintenance department and field teams in Riyadh, Jeddah and Dammam.

— VISION

03

To be the first-choice technology partner for Saudi organisations building smart, secure and sustainable workplaces, in support of Saudi Vision 2030.

JERAISY TECH

— MISSION

To deliver genuine, integrated technology solutions from leading global brands, supporting our clients from needs assessment through maintenance and support, with a specialist team that keeps their business running efficiently.

SINCE SUPPLY IS ONLY THE START

Reliability

Genuine equipment, certified warranty

Integration

One solution, start to finish

Continuity

Preventive maintenance, ongoing support

Partnership

A relationship beyond go-live

Integrated Technology Solutions

Fifteen technology areas, from hardware and infrastructure to augmented reality and smart systems, covered with supply, implementation and support.

04

CPU

Computing, Servers & Infrastructure

Desktops, laptops, workstations, servers, storage and data centre solutions.

PRT

Printing, Copying & Scanning

Multifunction printers, copiers and scanners, with managed print fleets.

BNK

Banking & Card Issuance

ATMs, POS and self-service kiosks, plus bank and ID card printers from Entrust Datacard.

HOS

Healthcare & Hospital Solutions

Medical workstations, display systems, patient queuing and digital records.

SEC

Security, Surveillance & Access Control

CCTV, video recording, electronic gates, biometric and time-attendance devices.

SCR

Professional & Interactive Displays

Interactive displays and projectors for meeting rooms and exhibitions.

LED

LED & Digital Signage

Large LED walls and digital signage for malls and airports.

EDU

Smart Education

Smart classrooms, interactive boards, digital learning platforms and fitted labs.

NET

Networking & Communications

Network infrastructure and audio-video conferencing systems.

DOC

Archiving & Document Management

Digital scanning, archiving and document management, with supplies and accessories.

AR

Augmented Reality

Interactive experiences that blend digital content with the real world for marketing, training and field maintenance.

VR

Virtual Reality

Immersive virtual environments for training, simulation, virtual tours and showcases.

ERP

ERP Systems

Integrated finance, inventory, procurement and HR management on one platform.

APP

Smart Applications

Custom mobile and web apps that automate operations and serve customers.

QMS

Queuing Systems

Ticket dispensers, calling displays and reports to manage waiting in branches and hospitals.

Networking, Communications & IoT Solutions

Network infrastructure and audio-video conferencing systems, forming the foundation for IoT solutions that connect your entire facility.

Network Infrastructure

Cabling, switches, routers and network cabinets for buildings and branches.

Wireless Networks

Managed, secure Wi-Fi coverage for offices, warehouses and campuses.

Audio-Video Conferencing

Integrated conferencing systems and fully equipped meeting rooms.

Unified Communications

IP telephony, desk phones and branches linked on one network.

IOT

Internet of Things (IoT) Solutions

We connect devices and sensors across facilities, offices and homes on a single platform, turning their data into alerts and reports that support decisions and reduce downtime.

Smart Sensors

Temperature, humidity, motion and energy sensors with connectivity gateways.

Asset Tracking

Track the location, condition and usage of devices and equipment.

Smart Facilities

Monitor and remotely control server rooms, power and HVAC.

Smart Offices & Homes

Lighting, AC, locks, cameras and smart plugs, controlled from your phone.

Monitoring Dashboards

Real-time KPIs, alerts and scheduled reports, integrated with existing systems.

WHERE WE DEPLOY

Facilities

Factories, warehouses, hospitals, complexes

Offices

Headquarters, branches, meeting rooms

Homes

Villas, apartments, residential compounds

A complete solution that doesn't end at delivery

A six-stage service cycle in which we stay with you at every step, so your equipment runs efficiently and your business keeps moving.

360°

from consulting to maintenance and support

01

STUDY

Needs Assessment

Understanding your operations, providing technical advice and selecting the right solutions.

02

SUPPLY

Supply & Preparation

Providing equipment, solutions, supplies and genuine spare parts.

03

INSTALL

Installation & Commissioning

Installing, configuring and commissioning equipment on site.

04

TRAIN

Training

Training users and transferring the know-how for optimal operation.

05

MANAGE

Managed Services

Proactive remote management, performance monitoring and regular reports to reduce downtime.

06

SUPPORT

Maintenance & Support

Preventive maintenance, repairs, technical support and after-sales service from a dedicated maintenance department.
